

SOCIAL POLICY

We try to give employees benefits that are above the standard as we believe that this can help to improve their lives in and out of work.

Satisfied employees are a prerequisite for a successful company. In addition to quality working environment we offer our employees an attractive social program.

Our social program :

- we provide 55% contribution of the meal vouchers
- drinking program for all employees
- continuous improvement of working environment
- we provide for our employees company shirts and pens each year
- our program provides 2% tax to our employee's non-for-profit organization for his child and for other organizations in the same way.
- we organize teambuilding twice-yearly
- we plan to establish contribution to supplementary pension fund
